

System Requirements

BarcodeOCR was developed for 32 and 64-bit Windows systems from Windows XP onwards. It has been successfully tested in Windows XP (32-Bit) Windows Vista (32-Bit und 64-Bit) Windows 7 (32-Bit und 64-Bit) Windows 8 (32-Bit und 64-Bit) Windows 8.1 (32-Bit und 64-Bit) Windows Server 2003 (64-Bit) Windows Server 2008 (64-Bit) Windows Server 2008 R2 (64-Bit) Windows Server 2012 (64-Bit) Windows Server 2012 R2 (64-Bit) Additionally to this, you will need the .NET Framework 3.5 installed on your computer. The setup will check if you already installed the Framework and will install it, if necessary. The performance of BarcodeOCR is up the configuration and your documents. We recommend to test BarcodeOCR on the specific system to get a real benchmark.
